<b>Detect if your plant<br> is infected!!</b></div><br>
<div style="font-size:20px;font-family:Montserrat;padding-
left:70px;padding-right:30px;text-align:justify;">Agriculture is one of
the major sectors worlds wide. Over the years it has developed and the
use of new technologies and equipment replaced almost all the
traditional methods of farming. The plant diseases effect the
production. Identification of diseases and taking necessary precautions
is all done through naked eye, which requires labour and laboratries.
This application helps farmers in detecting the diseases by observing
the spots on the leaves, which inturn saves effort and labor
costs.</div><br><br>
